

## Reč urednika Editor's note

Poštovane kolegice i kolege,  
dragi čitaoci „Medicinske reči“,

Pred Vama je petnaesti po redu broj našeg časopisa koji predstavlja zbornik sažetaka plenarnih predavanja za sve učesnike i uvodnih predavanja na okruglim stolovima sekcija i društava Nacionalne asocijacije udruženja zdravstvenih radnika Srbije sa jubilarnog XX kongresa Asocijacije koji se održava od 10–13. oktobra 2024. godine već tradicionalno u Vrnjačkoj banji. Bogat program kongresa, veliki broj stručnih saopštenja i raznovrsna tematika predavanja pokazatelj su velikog interesovanja zdravstvenih radnika iz raznih oblasti da podele svoja iskustva iz svakodnevnog rada. Kongres je i ovoga puta odlična platforma za razmenu ideja i razvijanje zajedničkih strategija za buduću rad. Timski rad u zdravstvu i obrazovanje svih kadrova jesu nezaobilazni faktor kvalitativnog profesionalnog delovanja i ostvarivanja zahteva savremene medicine, odnosno potreba pacijenata, sa posebnim akcentom na razmenu strategija i iskustava na internacionalnom nivou, po čemu se ovaj kongres posebno ističe.

Pozivamo Vas da se zajedničkim koracima pridružite nastojanjima za postizanje najviših standarda u našem radu. Pozivamo Vas da učestvujete u radu i svih sledećih kongresa Asocijacije, ali i da uzmete aktivno učešće u razvoju našeg časopisa koji sada već krupnim koracima zauzima ozbiljno mesto u stručnoj javnosti.

Esteemed colleagues,  
dear readers of “Medical Word”,

There is the fifteenth issue of our journal in front of you, which is a collection of summaries of plenary lectures for all participants and introductory lectures at the round tables of the sections and societies of the National Association of Healthcare Workers of Serbia from the association's XX jubilee congress, which is being held from October 10<sup>th</sup> to 13<sup>th</sup> 2024, traditionally in Vrnjačka Banja. The rich program of the congress, a large number of professional announcements, and various topics of lectures are an indication of the great interest of healthcare workers from various fields to share their experiences from their daily work. Once again, the Congress is an excellent platform for exchanging ideas and developing joint strategies for future work. Teamwork in health care and education of all staff are indispensable factors for quality professional action and meeting the requirements of modern medicine, that is, the needs of patients, with a special emphasis on the exchange of strategies and experiences at the international level, which is what makes this congress stand out.

We invite you to take steps together and to join the efforts to achieve the highest standards in our work. We also invite you to take part in the work of all the next congresses of the Association but also to take an active part in the development of our journal, which is already taking big steps to gain a serious place among the professional public.
